

SPORTS MEDICINE DEPARTMENT

Physician Referral List

The Haverford School Athletic Trainers are the first line of care for all injured student-athletes. We are trained to handle most common sports-related injuries and emergency situations. However, sometimes referral to a physician is necessary. You are free to use any physician you choose, and sometimes your insurance may dictate who you see, but this is a list of physicians to whom we commonly refer our injured student-athletes.

Orthopedic surgery, Sports medicine

Dr. David Rubenstein, M.D.
Main Line Health, Lankenau Hospital
610.642.3005

SPORTS MEDICINE DEPARTMENT

Physical Therapy Referral List

The Haverford School Athletic Trainers are the first line of care for all injured student-athletes. We are trained to rehabilitate most common sports-related injuries. However, sometimes, due to time constraints, and the specific demands of an injury, it is necessary to refer a student-athlete to a physical therapist. You are free to use any physical therapy practice you choose, and sometimes your insurance may dictate where you go, but this is a list of physical therapists to whom we commonly refer our injured student-athletes.
